MUHAMMAD SAMEER ALI

Frontend / Full-Stack Developer

Peshawar, Pakistan • khsameer626@gmail.com • +92 335 8181400 • linkedin.com/in/sameerali126 • github.com/SameerAli126 • msameerali.dev

SUMMARY

Frontend-focused full-stack developer building responsive web products with React, Next.js and TypeScript. At Deepixel, delivered mobile and Progressive Web App (PWA) navigation, streaming AI report workflows and document-editing fixes for Invictus. Experienced in translating product requirements into usable interfaces, connecting frontend features to APIs, debugging layout and authentication issues, and validating changes with automated tests and production builds. Also works with Python and Node.js on backend features.

EXPERIENCE

Deepixel — Full-Stack Developer

Apr 2026 – Present

Invictus — AI Deal Intelligence and Reporting Platform

`React, TypeScript, Vite, Tailwind CSS, Radix UI, Tiptap, Laravel, SSE`

- Built a responsive mobile shell with bottom navigation and Progressive Web App (PWA) setup; fixed standalone login persistence and adapted dashboards, report viewers and multi-step forms for mobile and tablet screens.
- Implemented an AI report workspace with SSE progress, user clarification prompts and saved deal/document context; added timeout recovery and editable partial drafts while preserving the guided report workflow.
- Stabilized Tiptap table editing by fixing stale-state overwrites, table parsing and nested-table insertion; improved report review, validation and export interfaces.
- Added automatic display scaling for Windows 125% and 150% settings plus a saved user control, making dense screens easier to use on scaled laptops.
- Audited 21 application views across four viewport sizes using Playwright screenshots; added 17 report-flow utility tests and verified changes with TypeScript checks and production builds.
- Supported local development with Docker startup scripts, service health checks and troubleshooting of authentication, API configuration and document-processing issues.

Full-Stack Software Engineer (Contract)

Jan 2023 – Present

Independent Clients and Local Software Houses | Remote / Pakistan

- Delivered responsive web features, API integrations and internal workflows for confidential client projects, using JavaScript/TypeScript and Python across frontend and backend work.

SELECTED INDEPENDENT PROJECTS

SAMIO — Personal Finance Dashboard

2025 – Present

`Next.js, TypeScript, Tailwind CSS, Prisma, PostgreSQL`

- Built responsive budgeting, transaction and reporting interfaces, including JSON export and distinct mobile, tablet and desktop navigation.
- Implemented email OTP verification, signed sessions and protected API routes with Prisma/PostgreSQL backend foundations and administrative tools.

PhotoStream / SnapCloud — Cloud Photo Sharing

Mar – Jul 2025

`React, TypeScript, Vite, FastAPI, MongoDB Atlas, Cloudinary`

- Built two frontend experiences backed by a shared FastAPI service, with JWT authentication and role-based access.
- Implemented photo uploads, search and social interactions, using Cloudinary for media delivery and MongoDB Atlas for metadata.

OptiTrade — Market and Portfolio Dashboard

Oct 2023 – Sep 2024

`Next.js, TypeScript, Node.js, PostgreSQL, TanStack Query, JWT`

- Migrated a React frontend to Next.js and integrated stock-data APIs into responsive market dashboards.
- Built watchlists, portfolio monitoring and trading interfaces with JWT authorization.

TECHNICAL SKILLS

Frontend:	JavaScript, TypeScript, React, Next.js, HTML, CSS, Tailwind CSS, Radix UI, Tiptap, Figma
Backend & Data:	Python, FastAPI, Node.js, Express.js, Laravel, REST APIs, SSE, Prisma, PostgreSQL, MongoDB, MySQL
Testing & Tools:	Git, GitHub, Playwright, Vitest, Vite, debugging, responsive testing, AI-assisted development
Deployment:	Vercel, Netlify, Render, Railway; Docker fundamentals

EDUCATION

Bachelor of Science in Computer Science

Sep 2021 – Oct 2025

City University of Science and Information Technology, Peshawar

GPA: 3.51 / 4.00
